

## SAFETY DATA SHEET

(according to Regulation (EC) No. 1907/2006)

Version: 1 Revision Date: 19.05.2020

### CHANNEL BLOCKS

#### 1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

##### 1.1 Product identifier

Product Name: *Channel Blocks*  
Product Code: *CHAN01*

##### 1.2 Relevant identified uses of the substance or mixture and uses advised against

##### 1.3 Details of the supplier of the safety data sheet

Company: **CHAUCER SOLUTIONS LIMITED**  
Address: *Beodric House  
5 Boldero Road  
Bury St. Edmunds  
Suffolk  
IP32 7BS  
United Kingdom*  
Telephone: *+ 44 (0) 1767 677445*  
E-mail: *admin@chaucersolutions.co.uk*

##### 1.4 Emergency telephone number

*+ 44 (0) 1767 677445 (Only available during office hours)*

#### 2. HAZARDS IDENTIFICATION

##### 2.1 Classification of the substance or mixture

Classification (according to Regulation (EC) No. 1272/2008):  
*Eye Irritation Category 2 H319: Causes serious eye irritation*

##### 2.2 Label elements

#### REGULATION (EC) No. 1272/2008

Pictogram(s):

Signal Word: **WARNING**

Hazard Statements: *H319: Causes serious eye irritation*

#### Precautionary Statements:

Prevention: P280: *Wear protective gloves/protective clothing/ eye protection/ face protection*  
P264: *Wash...thoroughly after handling*

Response: P305+P351+P338:  
*IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.*  
P337+P313:  
*If eye irritation persists: get medical advice / attention*

**2.3 Other Hazards** *None known*

### **3. COMPOSITION OF/INFORMATION ABOUT THE COMPONENTS**

#### **3.1 Substances**

#### **3.2 Mixtures**

### **4. FIRST AID MEASURES**

#### **4.1 Description of first aid measures**

General advice: *Take the Hazard and Precautionary Statements (section 2) into account. Show this Safety Data Sheet to the physician in attendance if required.*

Inhalation: *Remove from exposure site to fresh air and keep at rest. Contact physician if symptoms persist.*

Skin contact: *Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.*

Eye contact: *Flush immediately with water for at least 15 minutes. Remove contact lenses if possible. Contact physician if symptoms persist.*

Ingestion: *Rinse mouth with water and Contact physician if symptoms persist. Do NOT induce vomiting.*

#### **4.2 Most important symptoms and effects, both acute and delayed**

*No additional information*

#### **4.3 Indication of any immediate medical attention and special treatment needed**

*Provide physician with a copy of this Safety Data Sheet.*

### **5. FIRE-FIGHTING MEASURES**

#### **5.1 Extinguishing media**

Suitable extinguishing media:

*Water spray, carbon dioxide, dry chemical, foam.*

Extinguishing media which shall not be used for safety reasons:

*Do not use a high powered water jet directly on burning material.*

#### **5.2 Special Hazards arising from the substance or mixture**

*Combustible liquid; toxic gases may be released.*

#### **5.3 Advice for Fire Fighters**

Special protective equipment for fire fighting:

*Full protective suit.*

*Self-contained breathing apparatus (EN 133)*

Specific fire fighting methods:

*Do not use a high powered water jet directly on burning material.*

*Do not inhale fumes.  
Evacuate personnel to a safe area.  
Cool containers / tanks with water spray.*

## **6. ACCIDENTAL RELEASE MEASURES**

### **6.1 Personal precautions, protective equipment and emergency procedures**

*Remove all sources of ignition, and keep away from flames and hot surfaces. Avoid inhalation and contact with skin and eyes. Wear appropriate personal protective equipment. A self contained breathing apparatus is recommended in case of a major spill. Collect Spillage.*

### **6.2 Environmental precautions**

*Keep away from drains, surface and ground water and soil.*

### **6.3 Methods for cleaning or taking up**

*Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.*

## **7. HANDLING AND STORAGE**

### **7.1 Handling**

Advice on safe handling:

*Avoid contact with the eyes, skin and clothing. Avoid excessive inhalation of concentrated vapours. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each working period. Contaminated clothing and shoes should be thoroughly cleaned before re-use.*

*Avoid the formation or spread of dust in the air.*

### **7.2 Storage**

Requirements for storage areas and containers:

*Store in a cool, dry, ventilated area away from heat sources. Keep containers upright and tightly closed when not in use.*

## **8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

### **8.1 Control Parameters**

*No data available*

### **8.2 Personal protective equipment**

Respiratory protection:

*Use local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation including places where this material is openly weighed or measured.*

*In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures. No respiratory protection is required during normal operations in a workplace where engineering controls such as adequate ventilation, etc. are sufficient.*

*If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used:  
a) while engineering controls and appropriate safe work practices and/or procedures are being implemented; or*

- b) during short term maintenance procedures when engineering controls are not in normal operation or are not sufficient; or*
- c) if normal operational workplace vapour concentration in the air is increased due to heat;*
- d) during emergencies; or*
- e) if engineering controls and operational practices are not sufficient to reduce airborne concentrations below an established occupational exposure limit.*

Hand protection: *Avoid skin contact. Use chemically resistant gloves.*

Skin and body protection:

*Avoid contact with the skin. Wear a protective suit. Wash all contaminated clothing thoroughly before re-use.*

Eye protection: *Avoid contact with the eyes. Use tight-fitting goggles, face shield or safety glasses with side shields.*

Hygiene Measures:

*Ensure that eyewash stations and safety showers are close to the workstation location. Use clean, well-maintained personal protection equipment. Wash hands before breaks and at the end of the work day. Do not eat, drink or smoke whilst using or handling the product.*

*To the extent deemed appropriate, implement pre placement and regularly scheduled ascertainment of symptoms and spirometry testing of lung function for workers who are regularly exposed to this material.*

*To the extent deemed appropriate, use an experienced air sampling expert to identify and measure volatile chemicals that could be present in the workplace air or determine potential exposures and to ensure the continuing effectiveness of engineering controls and operational practices to minimize exposure.*

Protective measures:

*The protective equipment must be selected in accordance with current CEN standards and in cooperation with the supplier of the protective equipment. Selection of appropriate personal protective equipment should be based on an evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards and / or risks that may occur during use.*

General Advice: *Do not allow uncontrolled discharge of the product into the environment.*

## **9. PHYSICAL AND CHEMICAL PROPERTIES**

### **9.1 Appearance**

Physical state: *Solid*  
Colour: *Blue*  
Odour: *Pleasant*

### **9.2 Safety data**

Flash Point: *>93°C*  
Boiling Point: *>35°C*

## **10. STABILITY AND REACTIVITY**

### **10.1 Reactivity**

*This product is not considered reactive under normal working conditions.*

### **10.2 Chemical Stability**

*This product is stable at room temperature.*

### **10.3 Possibility of hazardous reactions**

*This product may react with strong oxidizing agents, acids and / or alkalis.*

#### **10.4 Conditions to avoid**

*Keep away from heat, sparks and open flame.*

#### **10.5 Incompatible materials**

*Strong oxidizing agents acids and alkalis.*

#### **10.6 Hazardous decomposition products**

*Toxic Gas (Carbon Monoxide and Carbon Dioxide) and unidentified organic compounds may be formed during combustion).*

### **11. TOXICOLOGICAL INFORMATION**

#### **11.1 Acute Toxicity**

Acute oral toxicity:

*There may be irritation in the throat*

Acute inhalation toxicity:

*There may be irritation of the throat with a feeling of tightness in the chest.*

Acute dermal toxicity:

*No data available*

Acute dermal toxicity (other routes of administration):

*No data available.*

Aspiration toxicity:

*No data available.*

#### **11.2 Skin corrosion/irritation**

Skin irritation: *Mild irritation at site of contact*

#### **11.3 Serious eye damage/eye irritation**

Eye irritation: *Irritation and redness*

#### **11.4 Respiratory or skin sensitization**

Sensitisation: *No data available*

#### **11.5 Aspiration hazard:**

Sensitisation: *No data available*

#### **11.6 Repeated dose toxicity**

Repeated dose toxicity:

*No data available.*

#### **11.7 STOT**

STOT – single exposure:

*May cause respiratory irritation.*

STOT – repeated exposure:

*No data available.*

#### **11.8 Carcinogenicity**

Carcinogenicity: *No data available.*

#### **11.9 Mutagenicity**

Genotoxicity in vitro:

*No data available.*

Genotoxicity in vivo:

*No data available.*

#### **11.10 Reproductive toxicity**

Reproductive toxicity:

*No data available.*

Developmental toxicity/Teratogenicity:

*No data available.*

## **12. ECOLOGICAL INFORMATION**

### **12.1 Ecotoxicity effects**

Aquatic Compartment (including sediment)

*Acute Fish Toxicity:*

*Aquatic Invertebrate Toxicity:*

### **12.2 Persistence and degradability**

Biodegradability:

### **12.3 Bioaccumulation**

Partition coefficient (n-octanol/water):

*No data available.*

### **12.4 Mobility**

Known distribution to environmental compartments:

*No data available.*

### **12.5 Other adverse effects**

Environmental assessment:

*Based on available data the product is not classified as dangerous for the environment, or toxic to aquatic organisms.*

## **13. DISPOSAL CONSIDERATIONS**

### **13.1 Waste treatment methods**

Product: *Dispose of according to local regulations. Do NOT dispose of into drainage systems and into the environment.*

Contaminated packaging:

*Empty containers should be taken to an approved waste handling site for recycling or disposal.*

## **14. TRANSPORT INFORMATION**

### **14.1 ADR**

*Not classified as hazardous for transport according to current regulations.*

### **14.2 RID**

*Not classified as hazardous for transport according to current regulations.*

### **14.3 IATA**

*Not classified as hazardous for transport according to current regulations.*

### **14.4 IMDG**

*Not classified as hazardous for transport according to current regulations.*

## **14.5 ADN / ADNR**

*Not classified as hazardous for transport according to current regulations.*

Note: The above regulatory prescriptions are those valid on the date of publication of this sheet. Given the possible evolution of transport regulations for hazardous materials, it would be advisable to regularly check their validity.

## **15. REGULATORY INFORMATION**

## **16. OTHER INFORMATION**

Full text of H – Statements referred to under sections 2 and 3

*H319: Causes serious eye irritation*

Full text of P – Statements referred to under sections 2 and 3

*P280: Wear protective gloves/protective clothing/ eye protection/ face protection*

*P264: Wash...thoroughly after handling*

*P305+P351+P338:*

*IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.*

*P337+P313:*

*If eye irritation persists: get medical advice / attention*

Further information:

According to Regulation (EC) No. 1907/2006 the information in this safety data sheet is based on the properties of the material known to Chaucer Solutions Ltd at the time the data sheet was issued. The Safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances, under which it is packaged, stored or applied in the workplace. The information hereon is reliable to the best of our knowledge. However, the recommendations or suggestions hereon shall not be construed as a warranty or representation as to the results, safety and efficacy. Users should always make their own evaluations and tests suitable for their particular needs. We cannot be held liable for any loss or damage arising from the use of the information hereon. This document is not intended for quality assurance purposes.
